ENGINEER'S REPORT OF THE SUNAPEE  
FIRE DEPARTMENT, 1957

In 1957 the Fire Department answered 5 alarm calls and nine still alarms.

We only had one serious fire this year, partly insured.

Our apparatus is in very good condition.

We added some 2½ inch hose and a new air compressor.

We wish to thank the towns people and summer residents for their cooperation.

Mrs. Mary Haven,

It is with deep regret that we the Trustees of Abbott Library in Sunapee accept your resignation after nearly thirty two years of devoted service to the community. Your loyalty and faithful service over these many years have won you and the library countless friends who will miss you. For lack of a better reward we wish to again say, Thanks for a job well done.

T. B. Patch Tests	130
Pre-school registration for 1st grade	17
Dental Clinics	6

School census completed in September with registration of all persons born before September to age of 19 years.

Cancer meeting at Manchester in September.

Cardiac meeting in Concord in November.

Annual School nurses meeting in Manchester in October.

In October, we were glad to welcome our new doctor to Sunapee—Dr. John Walker. I want to thank him for his interest in our health program and to express appreciation for the work of Dr. John Ohler when we had no doctor in Sunapee.

The Sunapee Women's Club sponsored the dental clinic as usual

with matching funds from the state.

A very severe epidemic of various types of flu caused a high incidence of absences in the fall months. There is still need for better dental care for school pupils and more care in the fitting of shoes for growing children.

I wish to thank all who have taken an interest in the work of the Lake Sunapee Nursing Association during the past year.

Respectfully submitted,

FLORENCE P. ROLLINS, R. N.

## REPORT OF THE SCHOOL BOARD

At the Annual District Meeting, March 12, 1957, the School Board was instructed to:

1. Get information regarding the need, cost and construction of a Memorial Gymnasium.

2. Study the consolidated school possibilities and the needs of the school.

1. Gymnasium:

- a. We met with a representative of Butler Manufacturing Company (Steel Products), on May 6 to discuss gymnasium plans, needs and costs. Films showing school buildings, auditoriums, gymnasiums and similar buildings were shown and discussed.

- b. Plans presented by the 1956-1957 gymnasium committee were reviewed.

- c. June 3, 1957, we met with two representatives of the Butler Manufacturing Company to study the plans and model for a combined gymnasium and auditorium designed for a community and a central school having a population approximately the size of Sunapee.

- (1) Construction: Butler pre-engineered steel frame 100 ft. x 120 ft.; steel trusses 20 ft. apart, 12,000 sq. ft., \$9.00 per sq. ft. (hardwood floor in gym.)

- d. No conclusion reached. Costs, materials available, etc. to be re-checked at a later date.

2. Needs of the School:

- a. Discussion meetings with representatives from New London, Andover, Wilmot, Springfield, Danbury, Newbury, Sutton, Grafton and Warner were held May 28, June 24, December 30, and January 20. Another meeting is planned for February 20.

- (1) The school needs in the respective towns have been discussed; a study of existing school buildings and equipment has been made by a committee representing the group mentioned above and the State Department of Education; and a report of costs, new buildings needed and best use of existing facilities has been prepared by Mr. Erik Anderson, State Department of Education.

Sunapee needs:

- (1) Additional Classrooms for elementary grades.

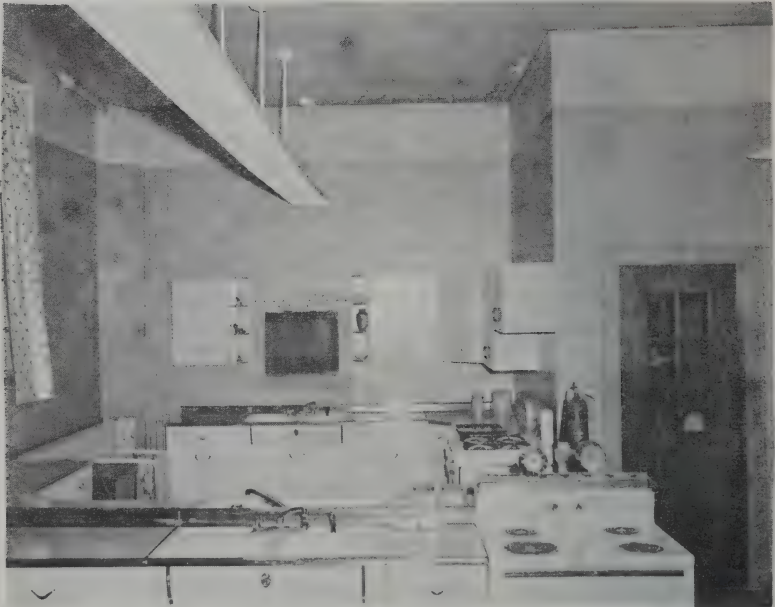

- (2) An Auditorium-Gymnasium

**Summary:**

Information available from studies made to date show a need for one centrally located High School for approximately 300-400 students. (At least this number of students is necessary to provide a satisfactory offering as required and elective courses at a reasonable cost, and to permit an athletic program that would fulfill the needs of the students and allow community participation.)

Location of the new building to be decided by towns participating in Co-operative School plan. (Probably somewhere in the New London area if the towns participating are in the group mentioned above.)

I submit herewith my tenth annual report as Superintendent of Schools.

## ENROLLMENT

The enrollment for the school year 1957-58 is 242 divided as follows:

Elementary Grades (1-8)	— 175
Senior High (9-12)	— 67

For several years Grade 1 has been operated in a room by itself. With the exception of Grade 5 (28 students), the other elementary grades are run as double grades within the same classroom. A further disadvantage in our present set-up is the fact that pupils within the same grade must be assigned to two different rooms.

Several of the lower elementary rooms are running well over thirty pupils per teacher in a double grade set-up. To help this situation in Grades 2 and 3, a former teacher has been employed for three mornings per week to assist with some of the groups within the room.

Anticipating a continued increase in elementary enrollment next year, plans have been made to employ an additional elementary teacher and to set up a temporary classroom in one-half of the Cafeteria. This would provide seven elementary rooms for eight grades. It should materially improve the present elementary arrangement.

## HIGH SCHOOL

Sunapee High School was visited in December by a group of staff members from the State Department of Education. This visit was to check Sunapee High School as an approved High School in terms of the Minimum Standards for New Hampshire Secondary Schools which will go into effect in September, 1958. It was also to check on the parts of the school plant and program which are in need of attention if Sunapee is to offer a comprehensive High School program.

I quote from the section of this report headed Action Strongly Recommended:

"Before the community takes any further steps to expand or remodel its existing High School, it is our recommendation that very careful study be given to the possibilities of developing a larger High School by joining with neighboring communities (1) to develop a Co-operative High School for that area or (2) to work out tuition arrangements that would result in a larger High School."

## CO-OPERATIVE SCHOOL STUDY

Sunapee School Officials and some interested citizens have joined with representatives of surrounding towns to gain information on Cooperative School Districts. It was felt that this school set-up should be thoroughly explored.

Co-operative School Districts may be formed on either a total twelve-grade basis or on a High School unit only. It should not be assumed that a Co-operative School would necessarily result in any substantial reduction in school costs. However, it is generally contended that higher educational standards could be provided for the same amount of money.

Co-operative School Districts are re-imburshed from 40 to 55% of school building costs by the State--in contrast to 30% received by a single District.

It seems desirable for Sunapee citizens to learn as much as possible about the workings of this type of school set-up, realizing that any major decision--especially at the High School level--will probably set the pattern of school organization here for many years to come.

## CONCLUSION

It is becoming more and more difficult to maintain academic standards in the face of increased costs for services and materials, coupled with an alarming nation-wide shortage of competent, qualified teachers.

Your continued interest and support is urgently needed to counter-act an all-too prevalent attitude today--to be content and satisfied with mediocre intellectual achievement. Academic success can be attained only through genuine mental exertion.

Respectfully submitted,

GORDON B. FLINT  
Superintendent of Schools

## REPORT OF HELPING TEACHER

The position of Helping Teacher in this supervisory union is now in its fourth year of providing services as directed by the Superintendent of schools and as established by law: ". . . to give helpful advice, counsel, and assistance to teachers, pupils and parents of a school system as a constructive means of improving the educational growth and development of children, solving pupil problems of retardation and maladjustment, adapting the program of studies to meet the needs of children and the community, bringing resources outside of the school to classroom teachers, pupils, and community, and in general acting as consultant to the entire staff and community in recognition of educational needs."

The cooperation and encouragement given me by all school personnel in Newport, Sunapee, New London, Springfield, and Croydon have constantly helped me to keep in focus and seek the fulfillment of the objectives mentioned above. I wish to express my deep appreciation to all who have guided and helped me to realize the various responsibilities and services outlined below:

1. **TESTING PROGRAM** - This includes the achievement test scheduled at all grade levels for the entire school at the end of the school year; mental ability tests administered to pupils in grades 1, 4, and 7; and individual or small group tests administered as needs arise. Test scores, whether taken from tests of readiness, aptitude, mental ability, or achievement, are meaningful only to the extent they are used to guide the educational growth and development of children and of the school system as a whole. With increased interest and need for providing better education for the exceptional child, whether below or above the average, a closer look at test scores in achievement and mental ability, together with careful consideration of all cases through conferences with teachers and principal, may indicate the need for more effective grouping of pupils within the classroom.

2. **CLASSROOM VISITS** - Visits are made with a purpose and make it possible to share the physical, emotional, and educational atmosphere of the classroom. Follow-up conferences with teachers are intended to exchange ideas, review general observations, and to promote instructional improvement, especially with new teachers and experienced teachers in new positions.

3. **RESOURCES AND MATERIALS** - These are essential in providing enrichment in teaching, with greater interest and learning for pupils. New texts, references, bulletins, and other memoranda bring to the classroom a variety of teaching aids and all help to strengthen the overall curriculum. Science at the elementary level, and English at the secondary level have been more recently under study with the hope of improving the curriculum in these areas.

4. MEETINGS AND CONFERENCES - Whether a formal staff meeting, and informal chat with a teacher, participation in P-T-A discussions, or attending educational conferences, such meetings cover a variety of topics, including the reporting of pupil progress to parents, curriculum materials, promotion of pupils, tests and their use, pupils with special problems, ideas for special grouping of pupils, and many other topics - all aimed at providing the best education for all.

5. AUDIO-VISUAL AIDS - The filmstrip is still the most useful and effective teaching aid in this field. Although the sound motion picture film is an excellent aid to teaching, it is rarely available when it is needed most. This year, with new filmstrips added in the fields of social studies and science, our library has seen considerable use in all schools. Future plans include the purchasing of more filmstrips in other areas of the curriculum.

The work of Helping Teacher shares in many other services and responsibilities of education, including conferences with parents, individual testing of pupils, the provision for in-service training of teachers through extension courses, assisting teachers with problems of keeping the school register, and many other interesting and varied experiences. The cooperative spirit of all teachers and the mutual interest in the best education for all make this work a purposeful pursuit.

Respectfully submitted,  
ALPHONSE J. SOUCY  
Helping Teacher

## REPORT OF THE PRINCIPAL

February 3, 1958

Mr. Gordon B. Flint,  
 Superintendent of Schools  
 Newport, New Hampshire

Dear Mr. Flint:

Commencement Exercises for Sunapee High School were held on June 13, 1957. There were twelve graduates--Kenneth Carey, Rodney Chandler, Brenda Colby, Paul Duling, Carol Eastman, Patricia Fadden, Bonita Gilchrist, Charles Leland, Jeanne Nutting, Wayne Osborne, David Partridge, and Robert Plotner.

Recipients of prizes and awards were as follows:

Babe Ruth Award — Patricia Fadden and Kenneth Carey  
 Readers Digest Award to the Valedictorian — Bonita Gilchrist  
 Sons of American Revolution Medal to eighth grader — William Hill

Daughter of American Revolution Certificate — Bonita Gilchrist

Josten Citizenship Medallion — Patricia Fadden

Sunapee Fire Department Sports Award — Rodney Chandler

Murvin A. Bailey Award — Bonita Gilchrist

Two members of the class are attending the University of New Hampshire. Two are attending Concord Commercial College. Two are in the Armed Services. Two are working in New London. Two are working in Sunapee. One is working in Newport and one in Lebanon. Two members of other recent graduating classes have also enrolled in the University of New Hampshire.

Because of the new minimum state requirements, it will be necessary to make some minor additions and adjustments in the high school program. Two courses in the field of fine arts must be added. The one half year course in Salesmanship will be dropped and a full year of Contemporary Problems will be offered on the Junior-Senior level. It will now become necessary to complete one unit each in science and mathematics and two units in the social studies field before graduation. A third year of French may be offered if the demand is sufficient.

I would like to thank the Junior Ski Committee, Sunapee Fire Department, and Sunapee Womens Club for their generous help in time and money toward aiding our school program.

Through you, I urge and encourage parents and friends of the school to visit and know your faculty. No form of report card, no word from the teacher can take the place of a personal visit.

Respectfully submitted,

DAVID W. SHERBURNE  
 Principal
